

IGLESIA RIOS DE ACEITE

Pastors: Drs. Hernan & Wendy Castaño

September 29, 2015

This letter is in reference to Dr. Kendall L. Baker and to express my full complete personal support on his race to become the city council representative for District F in the city of Houston. As a pastor in District F for over 20 years I have seen the needs, problems, and real resident issues that are visible in District F. We need a real representation in city council and not just a person who occupies that seat of honor and holds that delegated authority to not execute it properly. We need changes in the streets of District F, changes in dealing with the family issues of our community and above all a real leader with integrity and wisdom. Dr. Kendall Baker is the man, I strongly believe, to bring real leadership, to speak for us all in District F, and one that certainly has the character and leadership ability to restore District F to its highest standard in the city. I give my full endorsement to Dr. Kendall Baker and will ask all voters to do the same.

Sincerely, Dr. Hernan Castano

USPC Director of Hispanic Church Development

Senior Pastor of Rios De Aceite Church

Member of Board of Directors NHCLC
